Sheldon Oberman Award

Sheldon Oberman was a Winnipeg teacher, author, and storyteller who passed away in 2004. In his memory, and to encourage the teaching of creative writing to students in Manitoba schools, The Manitoba Association of Teachers of English presents an award annually to a pre-service Education student with a teaching area in English or Theatre who is also a talented creative writer. The student must be enrolled in a program in the faculty of education at a post-secondary institution in Manitoba. The recipient is presented with a plaque and a prize of \$250.00 at the MATE conference on the MTS Professional Development Day in October.

Education students who wish to be considered for this award should submit the application form, along with a portfolio of their creative writing, to MATE by June 30, 2017.
